Type of Bird and Stage	Starter Broiler	Layer	Grower	*Approx. Feeding Amounts lb/bird
Chickens - Egg Birds				
0 - 8 weeks	✓			2.5 - 3.0
8 - 20 weeks			✓	14.0 - 16.0
20 - 72 weeks		✓		75 - 110
Chickens - Meat Birds				
0 - 8 weeks (broilers)	✓			8.5 - 13.5
8 - 18 weeks (capon & roasters)	✓			25.0 - 43.0
Geese/Ducks - Meat Birds				
0 - 8 weeks	✓			18.0 - 22.0
Geese/Ducks - Pet Birds				
0 - 3 weeks	✓			5.0 - 8.0
Chart belows shows amounts of lb per bird/per day.				
3 weeks & older			✓	0.2 - 0.4
Mature Pets			✓	0.25 - 0.5
Mature Layers		✓		0.4 - 0.6

*Feed should be offered free choice, but periodically make birds clean up. Ranges shown are due to the great variability in body size of breeds involved in each category. For breeding flocks, restrict feed consumption to about 80% of normal consumption to prevent excess fattening. Provide clean, fresh water at all times.
